CAA TIEBREAKING PROCEDURE

If ties exist in the conference standings, the following procedure will be utilized to establish seeding for all CAA championships.

1) All ties will be broken 1st through 10th places in descending order.

2) Once one team gains an advantage in the case of a multiple-team tie, revert to the beginning of the tie-breaking policies with the remaining teams.

A. Two Team Ties

1) Regular season conference record.

2) Head-to-head competition.

3) If two tied teams split their two games during the regular season, compare each tied team's record against the team occupying the highest position in the standings and continue down through the standings until one team gains the advantage, thereby earning the higher seed. When comparing records against a single team or a group of teams, the higher winning percentage shall prevail, even if the number of games played against a team or group is unequal. If the winning percentage of the tied teams is equal against a team, or a group of tied teams, continue down through the standings until one team gains an advantage.

a) When arriving at another pair of tied teams while comparing records, use each team's record against the collective tied teams as a group (prior to their own tie-breaking procedures), rather than the performance against the individual tied teams.

4) If a tie still exists, the Ratings Percentage Index (RPI), as computed from the RPI Report by 9:00 a.m., on the day following the last scheduled conference game, will be used to break the tie. The team with the better RPI will earn the higher seed.

B. Multiple (3 or more teams) Ties

1) Head to head competition as determined by the combined record of games among the tied teams involved. Ties will be broken and seeds will be based on the winning percentage of games amongst the tied teams, even if the number of games played against the group is unequal;

2) If procedure B1 fails to break the tie, then each tied team's record shall be compared to the team occupying the highest position in the standings, continuing down through the standings until one team gains an advantage by a higher winning percentage as described in B1.

3) If the tie is broken by B1 or B2 regarding one or more teams, but three or more teams remain tied, then procedures B1 and B2 will be re-applied among those tied teams only. If two teams remain tied, revert to the two-tied team procedure.

4) If a tie still exists, the RPI, as computed from the RPI Report by 9:00 a.m., on the day following the last scheduled conference game, will be used to break the tie. The team with the better RPI will earn the higher seed.
