## Colorado Buffaloes

### Tad Boyle

#### Postgame Press Conference

Colorado - 72, USC - 70

THE MODERATOR: We'll start with an opening statement.

TAD BOYLE: I felt like tonight was a high-level basketball game by two really good teams, a lot of good players on that floor. Boy, Evan Mobley, we had done a really good job on him the first two games and not that we didn't think he was a good player, we knew he was a good player, but our guys had kind of kept him in check. But tonight, he made some big-time shots and big-time plays and we did a really good job on Eaddy early, much like we did on Bradley last night early, but then we got, he got going in the second half too. They made some big-time shots to close the gap and I don't think it was necessarily always bad defense, we had a few breakdowns. But I just thought it was two really good teams with good players. Evan Mobley would make a play, Mckinley Wright would make a play, Evan Mobley would make a play, McKinley would make a play, then one of their guys would make a play. Jeriah Horne made some big shots for us down the stretch there.

So I thought our guys really battled, great defensive intensity out of the gate, and then, but when USC gets it going offensively they have got some really, really talented players and they were good tonight. So it was kind of one of those games whoever had the ball last and fortunately it was us tonight and D'Shawn Schwartz made a big-time tip dunk to win that thing.

**Q. You alluded to it a second ago, but USC shoots 60 percent in the second half and normally a team does that they're not the one that loses the game. So other than just sheer Willpower and just a desire to pull this one out and get the final basket, I mean, what did it take to actually pull this one out and get the win tonight?**

TAD BOYLE: I think the key was rebounding. And that's something we had talked about coming into this game.

USC's a really good rebounding team, especially offensively, and again when they shoot 60 percent, there's not a lot of offensive rebounds to be had. But in the first couple games they had 12 and 13 rebounds against us, respectively, and tonight they only had eight. And our guys, we out-rebounded them by eight and I thought that was the difference in the game, quite frankly, because it was a, kind of a heavyweight fight with them making shots, us making shots, and yeah, we felt like, man, we went some stretches where we could not stop them and had no answer for them and we're pretty good defensive team, but USC played extremely well, I thought, offensively tonight.

**Q. The role Jeriah Horne has played here over the last few weeks, it continues to grow and he just continues to step up in the moments as a big veteran player for you guys. What can you say about his game tonight just staying steady through some misses and hitting some really clutch shots?**

TAD BOYLE: Yeah, he's a big shot-taker, big shot-maker. He's got supreme confidence. He's a rhythm shooter. He missed some ones that he normally would make. I mean, 6-15 is not normal Jeriah Horne, usually that's 6-9 or 6-10. But he got it going and he doesn't, the great shooters, they don't have a memory and he let's it go, and his teammates believe in him, he believes in himself. And what a team victory. I thought in the first half our bench was terrific. Kedshawn Barthelemy, when McKinley went out with the blow to the head, gave us big-time minutes. Jabari Walker gave us big-time minutes. Maddox Daniels hit a big shot for us in the second half, a pull up that was a much needed basket.

So the thing I love about this team is we have so many weapons and certainly Jeriah's one of them and he's become a reliable guy. We've got a really good kind of mojo going with starting our two bigs, with Dallas and Evan, but then as the game goes on Jeriah gets in the mix and when he's playing well, we're a force to be reckoned with ourselves offensively.

**Q. Tonight was a game of runs. In what ways is a veteran team like yours able to adjust when USC may go on a run and while you guys may go on a run, just**

## kind of that type of game?

TAD BOYLE: Yeah, I think the big thing for our team is we don't panic and we don't get our heads down. We realize that that's part of the game and it's two nights in a row now, with Cal last night, USC tonight where they made some big-time shots down the stretch and part of that might, you might look at your defense, but part of that is they just made great shots. But I thought the other key tonight, guys, we won this game at the three-point line. We made 12 threes. They made eight. Because you look at the percentages, they shoot 52 percent, almost, we shoot 42 and a half percent, so they're definitely more efficient offensively than we were, but we made timely threes. And they went to zone, which I thought we handled it pretty well, didn't have great possessions there early against it, but once we got into a rhythm, we're a pretty good zone offensive team. So we finally got them out of it and then they were switching ball screens and sometimes we handled that well, sometimes we didn't. But this team just has a resiliency and a fight and a belief in themselves and a toughness that is fun to be around.

**Q. You just mentioned making those plays down the stretch and a team that doesn't panic. Regardless of how tomorrow goes, are these the kind of games that will get you prepared for whatever happens next week?**

TAD BOYLE: Absolutely. This is a NCAA tournament-level game, a second round or even a Sweet 16-type game. That's what tonight was. Two teams that were very efficient and battled and made big-time plays. This was a high-level basketball game and we made an extra play and D'Shawn Schwartz, what a, I mean, the shot against Dayton last year to win that game was a big-time win for our program and then tonight's tip dunk, I mean, those are big-time finishes. So, yeah, it's going to prepare us for it without a doubt.

**Q. Is there anything that McKinley Wright does that surprises you anymore, including walking out of the locker room after it looked like he got knocked out. I mean, literally knocked out. Anything that he does that can surprise you?**

TAD BOYLE: No. And I knew this much, I knew if McKinley Wright could come back, he would come back. So when I saw him walk through the tunnel it was kind of a Willis Reed moment for those of you that remember the '69 championship, and there weren't enough fans in here to -- but our fans saw it and they started cheering him and I think it gave our team a lift. And again Keeshawn came in off the bench and played -- he's not used to playing extended minutes, he's been playing four minutes here,

five minutes there type thing in games, and he played -- he got a little tired, but he made some plays for us and kind of kept us, kept our engine going, which is, which McKinley obviously always does for us.

**Q. Just that final possession you guys had, McKinley just trimmed some time off the clock, ends up taking the final jumper, and of course D'Shawn crashes the glass, tips it in. Could you take us in the huddle a little bit that preceding timeout? Was what transpired with that final play, was that reflective of what you guys had talked about huddle or --**

TAD BOYLE: Yeah, I'll, absolutely, yeah, no, there was about a four and a half second, five second differential, so we were going to hold it for the last shot. We want to take that shot with about three to four seconds to go on the shot clock. I think there was a little bit less than that. But we wanted to definitely take it down to the end. We had a play called for McKinley, kind of an isolation play, and Eaddy did a good job of sniffing it out, and Evan Battey made a really, really veteran play and he came and set a ball screen for McKinley. McKinley got a great look, I mean, there's nobody we want shooting that ball in that situation more than we want McKinley. He had a wide open 15-footer. It didn't go down, but D'Shawn Schwartz did his job and he crashed the boards and he was able to get the tip dunk and it was, again, big-time players make big-time plays. So, yeah, we didn't get what we necessarily wanted. We wanted to get something at the rim, maybe put ourselves at the foul line. USC did a good job of guarding it, and Evan made a great job of recognizing it and setting a ball screen for McKinley to free him up and McKinley got a great look. We'll take that look from him. He's making that pullup 15-footer a lot right now. So, yeah, that's what went on huddle there.

**Q. For as long as I've known you, you've talked about playing for championships. You got a chance to do that tomorrow. Couple guys on your program, McKinley Wright, obviously a star pupil of yours, and Nate Tomlinson right by your side, who was a big part of that other championship of yours, Jeriah Horne. What are your feelings and thoughts going into this and maybe reflecting at all or is it just full steam ahead focusing on tomorrow?**

TAD BOYLE: Full steam ahead, but we are playing for a championship, we're playing for a championship ring, there's a handful of people in that locker room. Nate Tomlinson is one of them, Mike Rhon is one of them, Bill, the guys that have been here from the beginning have championship rings, but the players don't. You don't get this opportunity very often. So kind of the thought process for us tonight was you got to take advantage of your

opportunities in life and tonight's opportunity was win a basketball game for the opportunity to compete for a championship and tomorrow's opportunity is to go out and win a championship. And I'm sure Oregon State's feeling the same way. They're playing great basketball right now. Wayne Tinkle's done an unbelievable job with that team from the month of November, December to where they are now. He deserves a lot of credit and their players have gotten better and their team's gotten better. So we got our hands full. They're playing good basketball right now.

**Q. Wanted to ask about that with Oregon State, a team playing with a lot of confidence right now, what's maybe the keys for you guys in that matchup going into tomorrow?**

TAD BOYLE: Well, I think when you start talking about Oregon State, you got to start with Ethan Thompson, but they have got other weapons. Jarod Lucas is as good a three-point shooter as there is in this league, he's a great 90 percent-plus free throw shooter. Alatishe is a major problem in terms of his athleticism and he is finishing around the rim. He's very bouncy. Silva, if he catches it deep, forget it. He's not playing a lot of minutes for them, but when he plays, he catches it down low. He's a load. They have got multiple guys that are playing well, and again we've got our hands full. So we played them a few weeks ago in Corvallis and we won the game, but it wasn't an easy win, it wasn't a blowout win, it was a hard fought win, and that's the kind of game we're going to be in store for tomorrow because I know Oregon State, they're playing for their NCAA tournament lives and a championship. We're playing for a championship. So we better be ready to strap it up. But these opportunities don't come around very often. We had one, what was it, eight years ago? 2012. Nine years ago. Whatever it was. It's a long time to not have this opportunity. So we have put ourselves there, now it's a matter of going and trying to get it done.

## Colorado Buffaloes McKinley Wright

Postgame Press Conference

Colorado - 72, USC - 70

**Q. McKinley, can you let us in on how hurt you were when you get that elbow knock and if you thought -- I know you're a tough guy but did you think you were legitimately going to come back into that game right away?**

MCKINLEY WRIGHT: To be honest with you, I didn't know at that very second. It hurt. He's a big strong dude. Luckily I have a big head or else I would have been out for probably longer. But it hurt, man, I got a little knot back here, but it's a part of basketball. I ain't mad at him. He got an offensive rebound and was swinging through trying to create space to get a shot up but he caught me. It hurt, but I'll be all right.

**Q. You may not have seen it all personally because I think you were in the locker room for a little bit but when you went out Keeshawn came in and gave some good minutes, hit a couple threes back-to-back, and really just seemed to kind of fire the guys up when you were out. What's that just say about him and just what he's able to do stepping in like that in your absence?**

MCKINLEY WRIGHT: I'm so proud of Keeshawn and so excited for his future. It's hard for him being a freshman and being behind me and not playing a lot of minutes every game. And he stayed strong throughout the whole season and I always remind him that, Next year is your time to take over, it is your team next year, I'm going to be out of here. And I just keep constantly reminding him, he doesn't get frustrated, he don't get mad about it, he stays with me, he calls me his vet every day, he knows how much I appreciate him and love him. I'm excited for him, man, he's going to be real special. I told you this two years ago when I first seen him and he's getting stronger, jump stop's getting fluid. He's young still, he's learning, I'm so excited for him and his future.

**Q. Could you maybe take us into the locker room a**

**little bit after obviously a thrilling finish to this one and now this opportunity at hand to play for a championship.**

MCKINLEY WRIGHT: One more. That's all we keep screaming in the locker room. We were excited, Rick Joyce came in and hyped us up, Coach is hyped. Everybody's hyped. That's what we came here to do. We know we have the pieces to do it, the tools to do it, but it ain't going to be easy. Oregon State's playing really good right now. They won today against a good Oregon team. It ain't going to be easy, but we got the pieces to do it so it's going to be exciting and fun and we got to do what we got to do to get a ring.

**Q. D'Shawn. You talk about this team being more than just you. How about D'Shawn's bucket there in the end. He just comes up with those moments in big games for you guys?**

MCKINLEY WRIGHT: And he's done it. You're right. Big moments and big games for us. Seen him do it at Utah and a couple other times and he did it tonight. Before the, before we went out for tip-off Coach always draws stuff up on the board and the last thing on the board was, Do your offensive rebounding job, do your job, and he did his job and he crashed and I got a good look, about one second on the shot clock. It felt good, but left it a little short, and he crashed and got us a big-time tip dunk that won us the game. So that's big-time, that's a big-time play by 5.

**Q. We keep talking about Jeriah more and more as the season goes along. Leading rebounder tonight, hit some huge shots for you rather efficient too. Just the way he was playing, I know he didn't really get them from the 2-point range, but from three-point range. The way he plays off of you, could you envision a more perfect wing to play with, just the way he hustles and hits his shots?**

MCKINLEY WRIGHT: He's been such a huge piece for us on our team and it's crazy because we were supposed to have been teammates four years ago, I been knowing him for awhile. When he committed to Nebraska I was a senior in high school, and Tim Miles was coming up to see me a

lot in Minnesota, and Jeriah was recruiting me there. Obviously I didn't go to Nebraska, but we been, I've been knowing Jeriah for some years now. And then when he was transferring from Tulsa, he called me after we offered him a scholarship, I talked to him on the phone for about an hour, hour and a half just about life, about the chance to finally play together, about us winning PAC-12 championship. That's what he came here to do is to win at a high level and in a power 5 conference versus really good opponents every night. So we compliment each other very well and I'm excited for him and he came up huge for us. When they cut it close he hit two back-to-back big threes and that was huge.

**Q. It was a tough shooting night for you personally last night, but tonight much different. You were, that one that went in and out on three, for you, if that goes you have a career high on threes tonight. But you matched it. What was the difference for you tonight getting those shots to go down?**

MCKINLEY WRIGHT: I struggled last night. I missed a lot of easy bunnies last night, a couple wide open layups I missed last night, and after the game, we won, and I told my coach, I said, I promise you I ain't going to be that bad tomorrow. I told my teammates that. They all believed in me, they all rocked with me, so I continue to say this almost every media interview, when I got my coaches and teammates believing in me the way they do, it just makes my job so much easier. They're confident in me taking shots so I'm going to get them up when it's time to win.

**Q. Andy Enfield just said in his post-game press conference that you pushed Tahj Eaddy in the back on the final possession. Any thoughts on that, a well-defended play maybe from you?**

MCKINLEY WRIGHT: No comment. I got a steal. That's it. No comment. I'm not even going to get into that. We won the basketball game. I'm happy we won. They can do what they got to do now. We won. We're staying. We got a chance to play for a championship. I got a steal. That was it.

**Q. Here's a goofier one for you, a very Denver question. Assuming they win tonight, and they're still going right now, down the road from you, how is it going to feel to have CSU fans rooting for you hard tomorrow so that Oregon doesn't steal a bid from the Rams or anybody else? Because that's the math.**

MCKINLEY WRIGHT: Oh, so that's big time. My bro, my brother, David Roddy, he's a Minneapolis kid, he plays for CSU. I'm hoping they get in the tournament. I see it all the time that they're one of the last four in. They're playing

really good ball. Coach Thorson over there coached us back in Minnesota and then they have another coach who coached at the University of Minnesota that I know really well. So, no, as much as it's a rivalry and I hate them when we play against them, but when we don't play against them I'm rooting for them, I watched a lot of their games this year, I'm a fan, I got a good relationships with some of those guys on that team so I'm hoping they get in.

Las Vegas, Nevada, USA

## USC Trojans

### Andy Enfield

#### Postgame Press Conference

Colorado - 72, USC - 70

THE MODERATOR: We'll start with an opening statement from coach.

ANDY ENFIELD: It was a tough game. Both teams played very hard. Came down to last possession and unfortunately they got an offensive rebound and that was the game.

**Q. The team started really slow from, on offense and Chevez had that elbow and Ethan with his technical foul. Did you feel like the team came out without the right amount of poise for this type of game?**

ANDY ENFIELD: No, didn't think that. We just weren't playing very well offensively at the start of the game. I think we turned the ball over a few times and we missed a lot of shots and we weren't, our offense wasn't flowing like it has been the last few weeks, two weeks, and then we started to really move the ball, play well, and started to shoot a very high percentage after that. We shot 60 percent in the second half, 52 for the game. So our guys really turned it on. But, no, our guys were ready to play, they just didn't play very well.

**Q. In the second half, particularly maybe the last three to five minutes of the game, you saw your shooters willing to take the outside shot. Was there a, were they tentative in the beginning wanting to take those open shots? It kind of disrupted the flow of the offense that you were talking about.**

ANDY ENFIELD: It's an issue, like Ethan when he charged with about five or six minutes left in the game, we were down two and he had a wide open three when Evan threw it out and instead of shooting it, he drove and got a charge call. We have been telling Ethan and Drew and our other guys, if you're open, you have to shoot that. It really hurts our offense if our guards are open and they don't take open shots. So I was happy to see Drew made one, a big one

down the stretch for us, and Tahj made a couple big ones. But, yeah, you can't, it's hard to run offense if the teams can sag in the lane and double your bigs or double Evan and then no one wants to shoot from the perimeter. So but the last few minutes, we took those shots and got back in the game and tied it up.

**Q. Seemed like Tahj had like 10 or 11 points in those last three minutes or so. I think that got you guys that last opportunity. Can you walk us through that last possession where all of a sudden the refs didn't want to use their whistles in this game?**

ANDY ENFIELD: You mean on the out-of-bounds play that we ran the full court?

**Q. Yeah, the last possession where you didn't, they didn't get the shot off.**

ANDY ENFIELD: Well, we executed it perfectly and Evan got the ball in the middle, Tahj broke, and McKinley Wright pushed him in the back right in front of our bench and that was the game. And they didn't call a foul.

**Q. At the half the rebounding was even for both teams but in the second half they seemed to control the boards, particularly the offensive boards. Is there any reason that they were so successful rebounding?**

TAHJ EADDY: We got our hands on some balls and it seemed like, we our hands on probably four or five defensive rebounds and we just couldn't come up with it. It was frustrating to watch because they had five, looking at the stats, there's five team offensive rebounds, which means the ball gets tipped out of bounds or we had our hands on it and the ball gets tipped out of bounds, so it's not attributed to a particular player, it's attributed just to a team because we couldn't come up with the ball. So we have been a very good rebounding team all year but tonight we just had our hands all on them just couldn't come up with it.

**Q. What did you say to the players in the locker room? Obviously there's disappointment, but there's a big week coming up.**

TAHJ EADDY: Well, we played very hard tonight, we got back in the game, we tied it up, we cut it, we had a chance to take the lead with probably about six or seven minutes left. Isaiah White missed a three from the left corner and then McKinley Wright went down and got fouled. So instead of it being -- we had a chance to take the lead on that. Ethan, I think also had a chance to shoot that three when he got that charge and either tie it or take the lead. So we had our chances and then they made a few more shots, and I was very proud of our team how we fought back at the end, the last three minutes we tied it up again.

So, look, we battled. That was a very physical basketball game and they just made the last play. Like I said, it was a tip-in and then we actually executed our last play pretty well, and I thought Tahj got pushed in the back. But there was no call. So we'll move on, get ready for Indianapolis, and our guys are, we're very, very proud of what they have accomplished this year to put themselves in this position. Sure we would have liked to have won this game tonight, but we didn't. So we have to keep our heads up, our players have to realize they have accomplished a lot, but at the same time it's a new season, everybody is going to be one and done once we get to Indianapolis and they have to realize that every possession will matter whenever we play our first game.

**Q. Evan had 26 points again tonight, 52 over the last two games. What's he proven to you over this stretch of this tournament?**

TAHJ EADDY: He's been very aggressive offensively and he's played really well. I asked him if he needed a break at the 12-minute mark and it was a timeout and he said he didn't need one and he played 39 minutes tonight so just a guy to be able to play that long and that well with that type of stamina is pretty impressive for someone that big and to the extent he exerts so much energy on both side of the ball. So very proud of him his development he's really improved as a player throughout the season and we are going to need him to play at this level starting the end of this week.

**Q. You guys have loss seven in a row to Colorado, each of those games you guys have been out rebounded. What is it about this team especially and the season you haven't been out rebounded by many teams, what is it about this team especially that gives you trouble?**

TAHJ EADDY: Well number one their point guard. If you remember I think for three straight years when Jordan McLaughlin was a sophomore, Junior and senior I think we won every game for three years and then for the last three

years when McKinley Wright was a sophomore, junior and senior they've beaten us. He's very hard to stop, he's an exceptional player and they also have great size and they have six seniors on their team, they're very experienced. They're very physical, and for some reason they shoot the ball very, very well against us. If you look the last couple games they didn't shoot it so well, even the last game, but tonight they were on fire again. So give them credit. Horne and McKinley Wright both made four threes, McKinley Wright was shooting from the 25 percent from the three-point line coming into the game and tonight he went 4-6. So they played very well, and they're very physical and I think they have five or six seniors so give them credit, they played a good game.

**Q. What does this game tell you about your team and their chances in the NCAA tournament?**

TAHJ EADDY: Well, two good teams played tonight, came down to the last possession and I think we can compete with anybody but there's certain things we do well. I think we're 18 or 19-0 when three guys get double figures and tonight we only had two. I think we were 3-7 in the games that -- I think we're 19-0 when three guys get double figures and 3-7 when they don't. Tonight we only had two. So last night we had six guys in double figures. So we need a third scorer, we need to be able to put up 70 some points against a really good offensive team like Colorado is, tonight we had 70 even, so if we face a really good offensive team in the tournament we do need to score the ball ourselves. And then we have to keep defending at the same level we have been doing all year.

**Q. What do you think you need to tighten up going into next week?**

TAHJ EADDY: Well there's always things can you tighten up. We made a couple defensive mistakes tonight to give them some threes and so you can always tighten up your defense and then like I just mentioned our offense has to flow, I thought we did a terrific job at for the last 30 minutes, we shot 52 percent for the game, 60 percent in the second half, and so I thought our offense really started sharing the ball and getting great inside outside play and so, but our offense has to be like it has been the last two weeks.

FastScripts by ASAP Sports....

# Pac-12 Conference Men's Basketball Championship

Friday, March 12, 2021

Las Vegas, Nevada, USA

## USC Trojans

## Tahj Eaddy

### Postgame Press Conference

Colorado - 72, USC - 70

**Q. It seemed like you were not getting the space that you needed for your shots for a long time. And then the last three and a half minutes you were I think you scored all 11 of your points. What changed?**

TAHJ EADDY: It kind of changed their ball screen coverage on me. As the game kind of went on. As Evan started making those perimeter jumpers, they were kind of reluctant to kind of stay on me and hedge along or double the screen, however you want to put it. So they kind of loosened up their coverage a little bit so that allowed me to get a little space.

**Q. What was the biggest difference offensively in the second half compared to the first half?**

TAHJ EADDY: We just had better flow, better pace offensively. Colorado tried to get into us early, tried to deny all of our catches and just make everything tough for us. But as the game progressed we kind of settled in a little bit and we kind of got into a good groove.

**Q. Obviously you guys have played with Evan all season, but what's maybe been different from your perspective these last two games especially?**

TAHJ EADDY: I think he's just been ultra aggressive. I think he's taking his jump shot more, his perimeter jumper because teams are nervous for him to get around the basket because he's so talented, great touch around the rim, his jump hooks and things like that. So I think he's just taking what the defense is giving him instead of just trying to predetermine what he's going to do. So I think he's playing with great flow and we need him to be ultra aggressive like this every night.

**Q. What do you learn from the slow starts?**

TAHJ EADDY: I kind of just play within flow. I don't want

to try to force anything or take away from how we play traditionally how we play every night. Because if teams want to deny me, face guard me off the ball and things like that, trap the ball screens, I just try to make the right play. If the pass is to kick it to the corner or kick it back to Evan or whatever or setting a ball screen then that's what I'm going to do. But, yeah, I try to play the right way.

**Q. I was referring to the team. You guys struggled on the offensive end as a whole. How do you get out of an early funk when something like that happens?**

TAHJ EADDY: I think it starts with getting stops. Just for an example tonight Colorado got off to a good lead early and that maybe hindered our momentum or our intensity or our energy and things like that. But I think we're a defensive team we're one of the best defensive teams in the country for a reason and I think it starts on that end and that will carry over to the offensive end.

**Q. What do you think you guys got to do well in the NCAA tournament to potentially make a run?**

TAHJ EADDY: I think we got to come out to better starts, this is not the first time this has happened we put ourself in holes and things like that. But when would he play good teams we can't afford to do things like that. But like I saying it starts on the defensive end I think when we take care that have side of the ball we'll be able to get out in transition offensively and we'll be able to get into a good groove early.

**Q. I asked coach after the game for his answer, what is your response to the team maybe the outside shooters being reluctant to take the shot early in the game and disrupting the flow of the offense?**

TAHJ EADDY: Everybody who is in the game is capable of making that perimeter jumper. So guys just have to feel confident and just take that shot. It's necessary for our offense, teams like to load up on Evan or face guard me and things like that, so guys are going to have those opportunities, so we have to take 'em.

FastScripts by ASAP Sports....
