

"[My wife] and I absolutely loved the UTRGV Camp last summer! Our daughters have been to residential camp in UT Austin, Texas A&M and ODP in the last several years and spent upwards of \$600.00 per camp for just a few days of training.

The camp provided by the UTRGV Soccer program couldn't have made us happier; this camp is truly a remarkable value for our kids in the Valley. I can't believe more parents aren't taking advantage of this opportunity. The players get one-on-one training and get to interact with Div. 1 college athletes, something they don't get to do very often, and its right here!

As parents who take Soccer training for our kids seriously, I am elated that UTRGV Soccer took the initiative to offer these summer sessions for our kids. We will be back every year!

It's hands down one of the "BEST BANGS for the BUCK" you can find ANYWHERE for your soccer athlete."

Gus and Tonya Garcia, Parents of Participant - 2015 Youth Academy

"The coach's one-on-one was very good. It challenged me to become a faster thinker, to work hard and to always give my all; also to challenge myself to move and think quicker and be smart and smooth with my decisions."

Kaitie Watson, Participant - 2015 Elite Showcase

"The camp sessions were very empowering. [They] gave my daughter confidence in her abilities and a renewed strength."

Dawn Watson, Parent of Participant - 2015 Elite Showcase

"The UTRGV Staff offer a perspective that not many, if any, coaches in the RGV have as they see the end result of player's youth training and development in the Division 1 talent that they not only coach, but compete against and evaluate every year. That perspective, combined with their experience and knowledge allows them to conduct a camp that is purposeful in nature because they know where the girls need to end up and what to do to help them get there. However, the real value I see in sending my daughters to the UTRGV camp is that they have an opportunity to interact with Division 1 College players and Coaches on an actual college campus. The chance to develop relationships with positive role models in camp with similar goals and then follow up by attending games in the fall to cheer them on is something that I believe can have a much greater impact. Go Vaqueros!"

Diego Reyna, Parent of Participants (2) - 2015 Youth Academy

"I know as parents, we can get caught up in the financial part of a camp. Let me say that, the investment I have made for my daughter in the soccer camp the past 2 years has been worthwhile. Not only does she get to interact with other players, but she learns skills that she can immediately begin to use on the field. It is a win-win situation."

Rolando Diaz, Parent of Participant - 2014 & 2015 Youth Academy

"My daughter has had a great experience with the UTRGV training sessions. It has helped her improve her technical skills to play at a higher level. The coaches focus on my daughter's individual skill development and on her position as a midfielder. I would definitely recommend the sessions and camps. It is well worth the price!"

Brenda Bustamante, Parent of Participant – 2015 Elite Showcase

"Our two older girls attended UTRGV camp last summer and they both had a great time. The facilities and coaching are top notch. They both felt it was a perfect combination of training and fun! They will both be attending again this year. We are so thankful that a first class camp is available to us without having to drive several hours."

Tiffany and Chris Henderson, Parents of Participants (2) – 2015 Youth Academy
